EXPERIENCE

BirdEye / Product Design Intern   Aug 2019 - Present

Working closely with product managers, developers, and the design team in creating new features, redesigning current products, and introducing a new design system.

The Authentic Co / UI/UX Design Intern   Mar 2019 - May 2019

Researched, designed, and prototyped an exclusive entertainment product, prior to its public launch. The five-star application provides users a fun way to share and explore music.

Tech4good / UI Designer/Developer   Jul 2018 - Mar 2019

Collaborated with other designers in iterating 20+ high fidelity product designs for a web application helping 130+ users learn web development in real-world settings.

University of California, Santa Cruz / Tutor   Apr 2019 - Jun 2019

Tutored a class of over 130 students in their product design projects replicating Figma to HTML/SCSS.

RECENT PROJECTS

TutorHub, UX Designer/Developer

Conducted user interviews, heuristic evaluations, and designed wireframes on a mobile-optimized web application for users to conveniently access tutors or become a tutor.

Vinegar, Product Designer

Researched, designed, prototyped, and tested a web application for students to collaboratively take/share notes. Created over 30 vector illustrations used throughout the webpages.
